

Dear Registrant,

As registrants have had the opportunity to review our recent guidance documents on the RHPA transition, a number of questions have arisen that we wanted to address.

In response, we have prepared a Frequently Asked Questions document addressing the questions most commonly received:

NSRP FAQ: Reporting Obligations, Professional Misconduct & Practice Records
https://www.ns-rp.ca/downloads/NSRP_Registrant_FAQ_Reporting.pdf

This document covers:

- What registrants are required to track for their record of practice hours
- The difference between a report and a formal complaint under the RHPA
- How the CPA Code of Ethics interacts with the RHPA reporting obligation
- Reporting concerns about professionals from other regulated health professions
- What the reportable grounds — professional misconduct, incompetence, conduct unbecoming, and incapacity — mean in practice
- The reasonable grounds standard

This is a living document. If you have a question not addressed here, you are welcome to submit it to the NSRP office for consideration in a future update. Links to all relevant guidance documents and resources are provided at the end of the FAQ.

As always, for questions involving personal liability or specific legal matters, please contact your professional liability insurance provider or legal counsel.

Sincerely,

Nova Scotia Regulator of Psychology (NSRP)
